ACADEMY PLASTIC MODEL CO., LTD.

A passion for precision

In the plastic modeling industry, the competition is talented and driven. Yet no one is more passionate than Academy. We are resolved to deliver the most articulated models modern technology and dedicated artisans can produce. Where possible, we go to great lengths throughout the world to examine the prototype. We take hundreds of photos, make precise measurements, and acquire genuine blueprints. Only when our analysis of the original has been thorough, does the reproduction process begin.

Technology Fuels Our Passion

Our drive for perfection is supported by advanced technology, talented designers, experienced engineers and skilled craftsmen. Most possess keen modeling skills. For them, creating a model is not merely a job. It's a passion, a quest for perfection. The critical step of developing parts drawings uses the latest CAD (Computer Aided Design) techniques. 3-D modeling software programs help create the final drawings. Academy's CAD/CAE/CAM process is carefully integrated with our entire product development cycle, and coupled with our new CNC molding machines, we can create any shape and wall thickness with error-free tolerances.

The sum of our parts

This combination of skilled specialist and sophisticated equipment allows us to economically impart realism previously unattainable in plastic model kits. From precise scale to exacting detail, we capture the essence of the original. To mimic life to the fullest, Academy generally provides more parts in every kit, leading to more satisfaction for the earnest modeler. Some tanks feature treads that are built one link at a time as well as amazing interior detailing. Uniforms are creased with care. Movable gun turrets add realism. Helicopters are packed with armament. Aircraft carriers have flight decks filled with scale aircraft. Our mastery of the little things is legendary.

What does our extreme devotion to perfection mean to you?

Academy raises authenticity to a plateau others can only hope to attain. This in turn allows you to elevate your hobby to the next level. Building an Academy model invites you to stretch your skills and master the art. Only with a perfect kit, can you be rewarded with a perfectly built model. Step up to Academy and feel our passion for precision.

Reality in the right scale 1/35 scale helicopters

Avid modelers are spellbound by these remarkably realistic choppers. This 1/35-scale heli is an ideal complement to military dioramas. Depending on the model, you'll find detailed engines and transmissions, fire extinguishers, first aid kits, flexible ammo chutes and of course, firepower from .50 caliber machine guns to Hellfire missiles.

Some Helicopters are complete with pilot figures and crew. The selection includes the famed Black Hawk that found its way into movie theatres following its exploits in Somalia. The series runs the gamut from a Korean War Mash chopper to a Desert Storm Kiowa and a Vietnam era Huey with grenade launchers and rockets.

Precision that lets your modeling skills take flight

If aircraft are your passion, these scale planes give you the selection and accuracy to become an expert modeler.

Our extensive military selection ranges from a radar-invisible F-117A Stealth to a Russian MIG-29A Fulcrum and includes a long list of popular jets.

Depending on the kit you choose, you'll find cockpit detailing, authentic decals, and spectacular armament reproduction.

Selection. Selection. Selection. Details. Details. Details

Where else can you find a huge prop-powered Strato Cruiser, the colossal B-17 Flying Fortress and the high-flying reconnaissance SR-71A Blackbird along side the latest military jets.... all in the same 1/72nd scale series? Probably nowhere. This is a diverse selection in a scale big enough to let you devour the details, yet small enough for shelf display.

WWII bombers and fighters vie for attention with jets. If you collect aircraft, this enormous selection of 1/72-scale masterpieces provides hours of enjoyment and satisfaction.

We've also captured NASA's space shuttle in 1/228 scale, piggy-backed on a modified Boeing 747 ready for transport. Build them all and create your own aircraft museum.

1/72 FOCKE-WULF FW190D-9 'Papagei Staffel'

The cantilever low-wing Focke-Wulf was powered by a liquid-cooled Junkers Jumo engine and served as one of the Luftwaffe's major airplanes during World War II.

1616

1/72 P-51C MUSTANG

Widely used by the American and British forces, the Mustang was closely suited for tactical reconnaissance and its standard four 12.7mm machine guns meant that it also had potential for ground attack.

1623

1/72 SPAD XIII WWI FIGHTER

One of the fastest and most famous World War I fighters, this biplane flew for the Allied forces.

1624

1/72 SOPWITH CAMEL WWI FIGHTER

The most successful British fighter plane of World War I, this biplane was renowned for shooting down German ace Baron Manfred von Richthofen, "The Red Baron".

1641

1/72 JU-87G STUKA 'TANK BUSTER'

This cranked-wing dive-bomber, initially flown in 1935, and ground attack aircraft lasted through World War II.

1650

1/72 F4F-4 WILDCAT

The Wildcat began service with the U.S. Navy shortly before the Japanese bombed Pearl Harbor in December of 1941 and saw extensive action in the Pacific.

1651

1/72 TBD-1 AVENGER

Designed as a torpedo bomber, the Avenger's speed and performance made it a constant threat to enemy ships during World War II.

1653

1/72 MESSERSCHMITT BF109G-14

The Bf 109, which first saw action in 1937 during the Spanish Civil War, went on to become one of the Luftwaffe's most important aircraft.

1655

1/72 CURTISS P-40B TOMAHAWK

Before the U.S. entered World War II, many American pilots flew these planes in support of the Allied war effort. Collectively they were known as the "Flying Tigers" for their unique paint schemes.

An Fi156 Storch made the daring rescue of Benito Mussolini from an Italian stronghold high in the Alps.

**1/72 T-6G TEXAN**

Originally designed in 1938 as a trainer, the Texan served as a surveying plane during the Korean War and is still flown today as a trainer in some countries.

ACADEMY PLASTIC MODEL CO., LTD.

**1/72 TYPHOON MK.IB**

The Typhoon was well-suited for low-level attacks on shipping and armored divisions thanks to its twin mounted 20mm cannons and capability of carrying eight 60lb rockets.

**1/72 P-51B MUSTANG**

Widely used by the American and British forces, the Mustang was closely suited for tactical reconnaissance and its standard four 12.7mm machine-guns meant that it also had potential for ground attack.

**1/72 P-40M/N WARHAWK**

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

**1/72 TEMPEST V**

An elaboration of the Typhoon, the Tempest featured elliptical wings, allowing for higher airspeed and lower compressibility.

**1/72 MESSERSCHMITT BF109G-6**

The Bf109, which first saw action in 1937 during the Spanish Civil War and went on to become one of the Luftwaffe's most important aircraft.

**1/72 P-40E WARHAWK**

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

**1/72 ME163B-5 KOMET**

Powered by a Walter rocket motor, the Komet was capable of climbing at a rate of 11,800ft per minute. However, due to its late introduction in 1945, it had little impact on the war.

**1/72 P-47D THUNDERBOLT 'EILEEN'**

The P-47D's heavy load of armament, including eight 1/2-inch guns, and its powerful 2,535 horsepower engine earned it the affectionate nickname "The Jug".

**1/72 FOCKE-WULF FW190A-6/B**

Although slated to never achieve the same success as the Messerschmitt, the Focke-Wulf would prove to be one of the greatest fighters of World War II.

**1/72 F6F-3/5 HELLCAT**

A carrier-based fighter, the Hellcat played an instrumental role in the Pacific theater achieving a major victory for the Allies in the Battle for the Philippine Sea.

**1/72 PBV-5 CATALINA**

An updated version of the PBV-2, this amphibious airplane featured retractable landing gear.

**1/72 HURRICANE MK.IIC**

ARMOR SERIES

1/25 through 1/72 Scale Armor

Make a little military history of your own

Why do you build military kits? If you're like other serious modelers, you're fascinated with recreating history and proud to show off impeccably detailed displays. Academy's lineup lets you do both....

Beautifully our 1/35-scale tanks, armored personnel carriers and other battlefield vehicles are carefully designed down to the smallest feature. Depending on the model, you'll find tanks with exquisite interior crew compartments, realistic bogies, engine and transmission details, crew quarters, and field gear. Some provide individual treads you assemble one piece at a time, armor plates, ammo, movable turrets and other examples of realism rarely found elsewhere. The series includes infantry figures in life-like battle poses with facial expressions that speak for themselves. These are the touches that infuse dioramas with life.

SHIP & WARSHIPS SERIES

1/150 through 1/800 Scale Ship & Warships

Set sail for an authentic modeling adventure

Spanning thousands of years of naval history, Academy's collection of ships takes you from whalers to warships, from 1/350-scale sail-powered clippers to 1/800-scale nuclear aircraft carriers. All have one feature in common... superb detailing that brings naval history to life. Like radar masts with a wide array of antennas that are true to the original in scale and configuration. On the flight deck a full complement of aircraft, including fixed and rotary wing models, and even the service vehicles are accurately reproduced.

Whether it is the intimidating silhouette of the Bismark, the aircraft-filled flight deck of the Carl Vinson, or the sleek sails of the Cutty Sark, your choice is broad. You'll also find the most authentic reproduction of the Titanic ever made, complete with details like interior flooring, and seven interior staircases. See the entire selection at your hobby dealer.
