ACADEMY PLASTIC MODEL CO., LTD.

A passion for precision

In the plastic modeling industry, the competition is talented and driven. Yet no one is more passionate than Academy. We are resolved to deliver the most articulated models modern technology and dedicated artisans can produce. Where possible, we go to great lengths throughout the world to examine the prototype. We take hundreds of photos, make precise measurements, and acquire genuine blueprints. Only when our analysis of the original has been thorough, does the reproduction process begin.

Technology Fuels Our Passion

Our drive for perfection is supported by advanced technology, talented designers, experienced engineers and skilled craftsmen. Most possess keen modeling skills. For them, creating a model is not merely a job. It's a passion, a quest for perfection. The critical step of developing parts drawings uses the latest CAD(Computer Aided Design) techniques. 3-D modeling software programs help create the final drawings. Academy's CAD/CAE/CAM process is carefully integrated with our entire product development cycle, and coupled with our new CNC molding machines, we can create any shape and wall thickness with error-free tolerances.

The sum of our parts

This combination of skilled specialist and sophisticated equipment allows us to economically impart realism previously unattainable in plastic model kits. From precise scale to exacting detail, we capture the essence of the original. To mimic life to the fullest, Academy generally provides more parts in every kit, leading to more satisfaction for the earnest modeler. Some tanks feature treads that are built one link at a time as well as amazing interior detailing. Uniforms are creased with care. Movable gun turrets add realism. Helicopters are packed with armament. Aircraft carriers have flight decks filled with scale aircraft. Our mastery of the little things is legendary.

What does our extreme devotion to perfection mean to you?

Academy raises authenticity to a plateau others can only hope to attain. This in turn allows you to elevate your hobby to the next level. Building an Academy model invites you to stretch your skills and master the art. Only with a perfect kit, can you be rewarded with a perfectly built model. Step up to Academy and feel our passion for precision.

AIRCRAFT SERIES

1/32 through 1/48 Scale Aircraft & helicopters

Reality in the right scale 1/35 scale helicopters

Avid modelers are spellbound by these remarkably realistic choppers. This 1/35-scale heli is an ideal complement to military dioramas. Depending on the model, you'll find detailed engines and transmissions, fire extinguishers, first aid kits, flexible ammo chutes and of course, firepower from .50 caliber machine guns to Hellfire missiles.

Some Helicopters are complete with pilot figures and crew. The selection includes the famed Black Hawk that found its way into movie theatres following its exploits in Somalia. The series runs the gamut from a Korean War Mash chopper to a Desert Storm Kiowa and a Vietnam era Huey with grenade launchers and rockets.

Precision that lets your modeling skills take flight

If aircraft are your passion, these scale planes give you the selection and accuracy to become an expert modeler.

Our extensive military selection ranges from a radar-invisible F-117A Stealth to a Russian MIG-29A Fulcrum and includes a long list of popular jets.

Depending on the kit you choose, you'll find cockpit detailing, authentic decals, and spectacular armament reproduction.

Selection. Selection. Selection. Details. Details. Details

Where else can you find a huge prop-powered Strato Cruiser, the colossal B-17 Flying Fortress and the high-flying reconnaissance SR-71A Blackbird along side the latest military jets.... all in the same 1/72nd scale series? Probably nowhere. This is a diverse selection in a scale big enough to let you devour the details, yet small enough for shelf display.

WWII bombers and fighters vie for attention with jets. If you collect aircraft, this enormous selection of 1/72-scale masterpieces provides hours of enjoyment and satisfaction.

We've also captured NASA's space shuttle in 1/228 scale, piggy-backed on a modified Boeing 747 ready for transport. Build them all and create your own aircraft museum.

1/72 IL-2 STORMOVIK

ARMOR SERIES

1/35 through 1/72 Scale Armor

Make a little military history of your own

Why do you build military kits? If you're like other serious modelers, you're fascinated with recreating history and proud to show off impeccably detailed displays. Academy's lineup lets you do both.... Beautifully our 1/35-scale tanks, armored personnel carriers and other battlefield vehicles are carefully designed down to the smallest feature. Depending on the model, you'll find tanks with exquisite interior crew compartments, realistic bogies, engine and transmission details, crew quarters, and field gear. Some provide individual treads you assemble one piece at a time, armor plates, ammo, movable turrets and other examples of realism rarely found elsewhere. The series includes infantry figures in life-like battle poses with facial expressions that speak for themselves. These are the touches that infuse dioramas with life.
