ACADEMY PLASTIC MODEL CO., LTD.

### A Passion for Precision

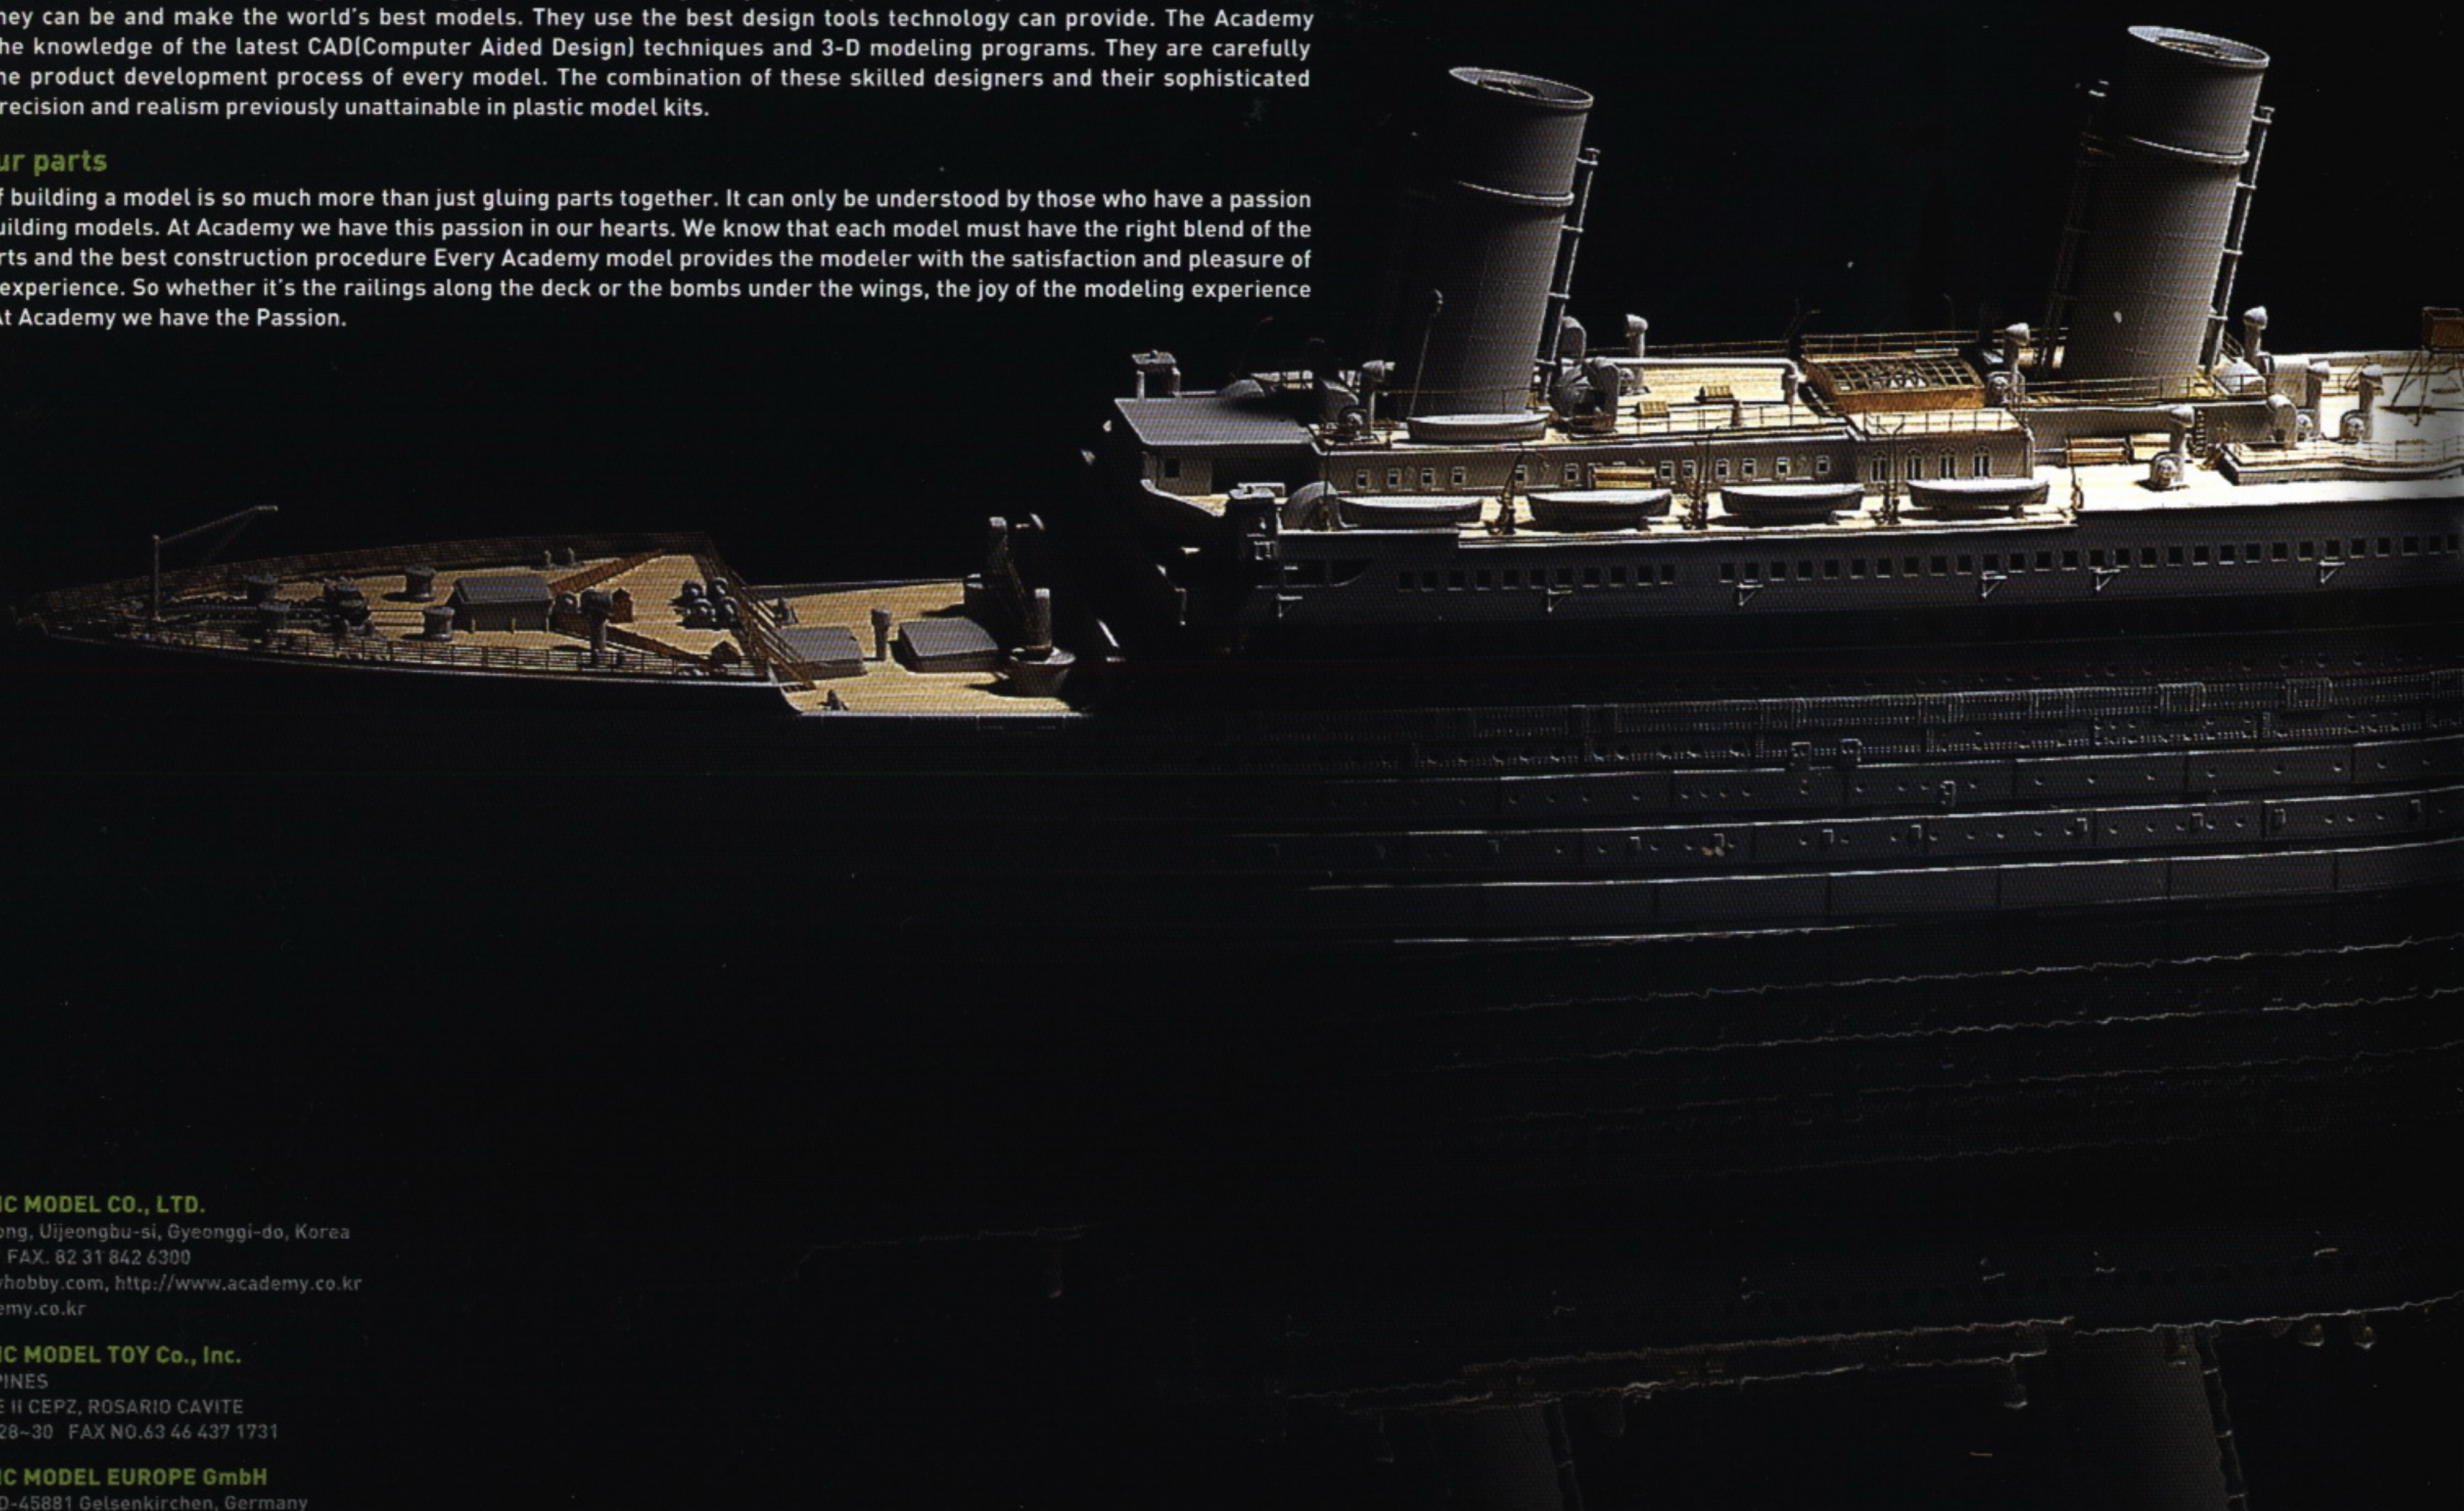

Year after year the quality level in the world of plastic model kits continues to excel. The Passion for Precision puts Academy in a leadership role of these companies. There are no limits to the lengths we will go to make the best models in the world. It all starts with very extensive and in-depth research making the final model the most accurate in the industry. There are no compromises in this quest for information. The research comes in many forms such as original blueprints, hundreds of photos and very precise measurements. The model design does not start until the research is complete and it insures a truly great model. It all comes down to, A Passion for Precision!

### Technology Fuels Our Passion

Just having great research is not enough; a great model needs to come from great design. This happens at Academy where the designers have the heart of a modeler. For Academy designers making great models is not just a job, it's a passion. This passion drives them to be the best designers they can be and make the world's best models. They use the best design tools technology can provide. The Academy designers have the knowledge of the latest CAD(Computer Aided Design) techniques and 3-D modeling programs. They are carefully integrated into the product development process of every model. The combination of these skilled designers and their sophisticated equipment puts precision and realism previously unattainable in plastic model kits.

### The Sum of Our parts

The experience of building a model is so much more than just gluing parts together. It can only be understood by those who have a passion for making and building models. At Academy we have this passion in our hearts. We know that each model must have the right blend of the most accurate parts and the best construction procedure. Every Academy model provides the modeler with the satisfaction and pleasure of the best building experience. So whether it's the railings along the deck or the bombs under the wings, the joy of the modeling experience will be realized. At Academy we have the Passion.

MODEL KITS**  
Aircraft & helicopters  
1:32 ~ 1:48 Scale

### Reality in the right scale 1/35 scale helicopters

Avid modelers are spellbound by these remarkably realistic choppers. This 1/35-scale heli is an ideal complement to military dioramas. Depending on the model, you'll find detailed engines and transmissions, fire extinguishers, first aid kits, flexible ammo chutes and of course, firepower from .50 caliber machine guns to Hellfire missiles.

Some Helicopters are complete with pilot figures and crew. The selection includes the famed Black Hawk that found its way into movie theatres following its exploits in Somalia. The series runs the gamut from a Korean War Mash chopper to a Desert Storm Kiowa and a Vietnam era Huey with grenade launchers and rockets.

### Precision that lets your modeling skills take flight

If aircrafts are your passion, these scale planes give you the selection and accuracy to become an expert modeler. Our extensive military selection ranges from a radar-invisible F-117A Stealth to a Russian MIG-29A Fulcrum and includes a long list of popular jets.

Depending on the kit you choose, you'll find cockpit detailing, authentic decals, and spectacular armament reproduction.

### **Selection. Selection. Selection. Details. Details. Details**

Where else can you find a huge prop-powered Strato Cruiser, the colossal B-17 Flying Fortress and the high-flying reconnaissance SR-71A Blackbird along side the latest military jets.... all in the same 1/72nd scale series? Probably nowhere. This is a diverse selection in a scale big enough to let you devour the details, yet small enough for shelf display. WWII bombers and fighters vie for attention with jets. If you collect aircraft, this enormous selection of 1/72-scale masterpieces provides hours of enjoyment and satisfaction. We've also captured NASA's space shuttle in 1/288 scale, piggy-backed on a modified Boeing 747 ready for transport. Build them all and create your own aircraft museum.

## SB2C-4 HELLDIVER

### Make a little military history of your own

Why do you build military kits? If you're like other serious modelers, you're fascinated with recreating history and proud to show off impeccably detailed displays. Academy's lineup lets you do both..... Beautifully our 1/35-scale tanks, armored personnel carriers and other battlefield vehicles are carefully designed down to the smallest feature. Depending on the model, you'll find tanks with exquisite interior crew compartments, realistic bogies, engine and transmission details, crew quarters, and field gear. Some provide individual treads you assemble one piece at a time, armor plates, ammo, movable turrets and other examples of realism rarely found elsewhere. The series includes infantry figures in life-like battle poses with facial expressions that speak for themselves. These are the touches that infuse dioramas with life.

## Set sail for an authentic modeling adventure

Spanning thousands of years of naval history, Academy's collection of ships takes you from whalers to warships, from 1/350-scale sail-powered clippers to 1/800-scale nuclear aircraft carriers. All have one feature in common... superb detailing that brings naval history to life. Like radar masts with a wide array of antennas that are true to the original in scale and configuration. On the flight deck a full complement of aircraft, including fixed and rotary wing models, and even the service vehicles are accurately reproduced.

Whether it is the intimidating silhouette of the Bismark, the aircraft-filled flight deck of the Carl Vinson, or the sleek sails of the Cutty Sark, your choice is broad. You'll also find the most authentic reproduction of the Titanic ever made, complete with details like interior flooring, and seven interior staircases. See the entire selection at your hobby dealer.
