ACADEMY PLASTIC MODEL CO., LTD.

A Passion for Precision

Year after year the quality level in the world of plastic model kits continues to excel. The Passion for Precision puts Academy in a leadership role of these companies. There are no limits to the lengths we will go to make the best models in the world. It all starts with very extensive and in-depth research making the final model the most accurate in the industry. There are no compromises in this quest for information. The research comes in many forms such as original blueprints, hundreds of photos and very precise measurements. The model design does not start until the research is complete and it insures a truly great model. It all comes down to, A Passion for Precision!

Technology Fuels Our Passion

Just having great research is not enough; a great model needs to come from great design. This happens at Academy where the designers have the heart of a modeler. For Academy designers making great models is not just a job, it's a passion. This passion drives them to be the best designers they can be and make the world's best models. They use the best design tools technology can provide. The Academy designers have the knowledge of the latest CAD(Computer Aided Design) techniques and 3-D modeling programs. They are carefully integrated into the product development process of every model. The combination of these skilled designers and their sophisticated equipment puts precision and realism previously unattainable in plastic model kits.

The Sum of Our parts

The experience of building a model is so much more than just gluing parts together. It can only be understood by those who have a passion for making and building models. At Academy we have this passion in our hearts. We know that each model must have the right blend of the most accurate parts and the best construction procedure. Every Academy model provides the modeler with the satisfaction and pleasure of the best building experience. So whether it's the railings along the deck or the bombs under the wings, the joy of the modeling experience will be realized. At Academy we have the Passion.

Aircraft & helicopters
1:32 ~ 1:48 Scale

Reality in the right scale 1/35 scale helicopters

Avid modelers are spellbound by these remarkably realistic choppers. This 1/35-scale heli is an ideal complement to military dioramas. Depending on the model, you'll find detailed engines and transmissions, fire extinguishers, first aid kits, flexible ammo chutes and of course, firepower from .50 caliber machine guns to Hellfire missiles.

Some Helicopters are complete with pilot figures and crew. The selection includes the famed Black Hawk that found its way into movie theatres following its exploits in Somalia. The series runs the gamut from a Korean War Mash chopper to a Desert Storm Kiowa and a Vietnam era Huey with grenade launchers and rockets.

Precision that lets your modeling skills take flight

If aircraft are your passion, these scale planes give you the selection and accuracy to become an expert modeler. Our extensive military selection ranges from a radar-invisible F-117A Stealth to a Russian MiG-29A Fulcrum and includes a long list of popular jets.

Depending on the kit you choose, you'll find cockpit detailing, authentic decals, and spectacular armament reproduction.

Selection. Selection. Selection. Details. Details. Details

Where else can you find a huge prop-powered Strato Cruiser, the colossal B-17 Flying Fortress and the high-flying reconnaissance SR-71A Blackbird along side the latest military jets..... all in the same 1/72nd scale series? Probably nowhere. This is a diverse selection in a scale big enough to let you devour the details, yet small enough for shelf display. WWII bombers and fighters vie for attention with jets. If you collect aircraft, this enormous selection of 1/72-scale masterpieces provides hours of enjoyment and satisfaction.

We've also captured NASA's space shuttle in 1/288 scale, piggy-backed on a modified Boeing 747 ready for transport. Build them all and create your own aircraft museum.

JU87G-2 STUKA 'KANONEN VOGEL'

1623 This cranked-wing dive-bomber initially flown in 1935 and ground attack aircraft lasted through World War II.

12404

SPAD XIII WWI FIGHTER

1623

One of the fastest and most famous World War I fighters, this biplane flew for the Allied forces.

SOPWITH CAMEL WWI FIGHTER

1624

The most successful British fighter plane of World War I, this biplane was renowned for shooting down German Ace Rittmeister Manfred von Richthofen, "The Red Baron".

JU-87G STUKA 'TANK BUSTER'

1641

This cranked-wing dive-bomber, initially flown in 1935, and ground attack aircraft lasted through World War II.

F4F-4 WILDCAT

1650

The Wildcat began service with the U.S. Navy shortly before the Japanese bombed Pearl Harbor in December of 1941 and saw extensive action in the Pacific.

FOCKE-WULF FW190D-9 'Papagei Staffel' 1611

The cantilever low-wing Focke-Wulf was powered by a liquid-cooled Junkers Jumo engine and served as one of the Luftwaffe's major airplanes during World War II.

P-51C MUSTANG

1616

Widely used by the American and British forces, the Mustang was closely suited for tactical reconnaissance and its standard four 12.7mm machine guns meant that it also had potential for ground attack.

TBF-1 AVENGER

1651

Designed as a torpedo bomber, the Avenger's speed and performance made it a constant threat to enemy ships during World War II.

MESSerschmitt Bf109G-14

1653

The Bf109, which first saw action in 1937 during the Spanish Civil War, went on to become one of the Luftwaffe's most important aircraft.

F4U-1 CORSAIR

1657

The F4U-1 Corsair was nicknamed "Whistling Death" by the enemy due to the fear the engine sound inspired as the plane approached.

P-40M/N WARHAWK

1668

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

P-51B MUSTANG

1667

Widely used by the American and British forces, the Mustang was closely suited for tactical reconnaissance and its standard four 12.7mm machine-guns meant that it also had potential for ground attack.

TEMPEST V

1669

An elaboration of the Typhoon, the Tempest featured elliptical wings, allowing for higher airspeed and lower compressibility.

CURTISS P-40B TOMAHAWK

1655

Before the U.S. entered World War II, many American pilots flew these planes in support of the Allied war effort. Collectively they were known as the "Flying Tigers" for their unique paint schemes.

FOCKE-WULF FW190D

1660

The cantilever low-wing Focke-Wulf was powered by a liquid-cooled Junkers Jumo engine and served as one of the Luftwaffe's major airplanes during World War II.

TYPHOON MK.IB

1664

The Typhoon was well-suited for low-level attacks on shipping and armored divisions thanks to its twin mounted 20mm cannons and capability of carrying eight 60lb rockets.

MESSerschmitt Bf109G-6

1670

The Bf109, which first saw action in 1937 during the Spanish Civil War and went on to become one of the Luftwaffe's most important aircraft.

P-40E WARHAWK

1671

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

Messerschmitt Me262A-1a

12410

The first jet fighter practically flown by Luftwaffe. Finely engraved panel lines & rivet details. Highly detailed cockpit & landing gear bay. Authentic markings included.

Me163B-5 KOMET

1673

Powered by a Walter rocket motor, the Komet was capable of climbing at a rate of 11,800ft per minute. However, due to its late introduction in 1945, it had little impact on the war.

P-47D THUNDERBOLT 'EILEEN'

2105

The P-47D's heavy load of armament, including eight 1/2-inch guns, and its powerful 2,535 horsepower engine earned it the affectionate nickname "The Jug".

FOCKE-WULF FW190A-6/8

2120

Although slated to never achieve the same success as the Messerschmitt, the Focke-Wulf would prove to be one of the greatest fighters of World War II.

F6F-3/5 HELLCAT

2121

A carrier-based fighter, the Hellcat played an instrumental role in the Pacific theater achieving a major victory for the Allies in the Battle for the Philippine Sea.

SPITFIRE MK.XIVc

2130

The MK.XIVc model of the British workhorse Spitfire plane featured a strengthened airframe designed to hold the weight of a larger engine and five-blade propeller.

HURRICANE MK.IIC

2129

The lesser-known Hurricane, first flown in 1937, gained fame by fighting alongside the Supermarine Spitfire during the Battle of Britain.

P-51D MUSTANG

2132

The P-51D was the major production version of the Mustang, equipped with a bubble canopy and six 12.7mm machine guns.

Make a little military history of your own

Why do you build military kits? If you're like other serious modelers, you're fascinated with recreating history and proud to show off impeccably detailed displays. Academy's lineup lets you do both..... Beautifully our 1/35-scale tanks, armored personnel carriers and other battlefield vehicles are carefully designed down to the smallest feature. Depending on the model, you'll find tanks with exquisite interior crew compartments, realistic bogies, engine and transmission details, crew quarters, and field gear. Some provide individual treads you assemble one piece at a time, armor plates, ammo, movable turrets and other examples of realism rarely found elsewhere. The series includes infantry figures in life-like battle poses with facial expressions that speak for themselves. These are the touches that infuse dioramas with life.

Set sail for an authentic modeling adventure

Spanning thousands of years of naval history, Academy's collection of ships takes you from whalers to warships, from 1/350-scale sail-powered clippers to 1/800-scale nuclear aircraft carriers. All have one feature in common... superb detailing that brings naval history to life. Like radar masts with a wide array of antennas that are true to the original in scale and configuration. On the flight deck a full complement of aircraft, including fixed and rotary wing models, and even the service vehicles are accurately reproduced.

Whether it is the intimidating silhouette of the Bismark, the aircraft-filled flight deck of the Carl Vinson, or the sleek sails of the Cutty Sark, your choice is broad. You'll also find the most authentic reproduction of the Titanic ever made, complete with details like interior flooring, and seven interior staircases. See the entire selection at your hobby dealer.
