CATALOGUE
2012

EDITIONS

ProfiPACK

In this catalog, these kits are identified with this label:

ProfiPACK is our basic, high standard plastic kit edition. Each ProfiPACK kit contains a complete plastic model kit with additional items for various subvariants, photoetched sets, Eduard masks and a large decal sheet covering four to six markings options with stencils. The ProfiPACK kits are produced in 1/48, 1/72, 1/144 and 1/32 scales.

This line is easily recognizable with its orange accented box, and with more recent releases, the addition of the ProfiPACK logo. The older ProfiPACK kits had a black box and also carried the ProfiPACK name. ProfiPACK kits are designed for all moderately experienced modelers.

WEEKEND edition

In this catalog, these kits are identified with this label:

The Weekend Edition offers a simpler and less expensive alternative to the standard ProfiPACK kits. They provide a top quality injection molded kit at an incredibly competitive price.

The Weekend edition kits contain all parts in injection molded plastic, and build one specific variant.

They contain no additional accessories, and have a single marking option for which the boxtop serves as a guide. These kits are designed for those modelers that don't require or want all of the 'bells and whistles' of the ProfiPACK kits, and are ideal for beginners and quick turnaround modelers.

These kits still can be upgraded with separately available accessory sets as, and if, desired.

eduard LIMITED EDITION

In this catalog, these kits are identified with this label:

The Limited Edition kits offer plastic from Eduard runs, as well as of those of other manufacturer's. The plastic is then brought up to the ProfiPACK standard with the inclusion of PE sets, masks and large decal sheets, and are further complemented with other accessories such as resin details (exhausts, engines, wheels etc.), figures and/or supplementary publications. Many of the Limited Edition kits are offered in a Dual Combo packing, containing two complete kits. They are produced with the serious modeler and collector in mind.

Most of these have historically sold out in a matter of weeks.

SUPER44

In this catalog, these kits are identified with this label:

'Super44' is a brand new edition of Eduard 1/144th scale kits. They contain a decal sheet with at least four marking options, with no additional accessories such as photo-etch or painting masks. These kits are designed for lovers of 1/144 scale and are ideal for beginners and quick turnaround modelers.

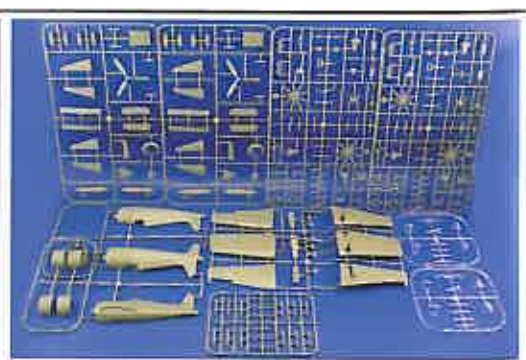

These kits still can be upgraded with separately available accessory sets if, and as, desired.

ROYAL CLASS

In this catalog, these kits are identified with this label:

The name here is pretty self explanatory. The distinctive black box typifies the top quality nature of the kits, and contain two complete kits (though three have also been included in some subject matters). The decals offer 10 + marking options with stencils, a very extensive assortment of PE and masks, and an extra large instruction booklet. Special bonuses are included in the form of 1:1 replicas of medals and insignia, large scale instrument panels, supplementary publications, resin parts, or pieces of the actual aircraft relevant to the subject. These kits, although not cheap, are unique in the hobby and target very discriminating modelers, collectors and aviation enthusiasts.

Photo-etched Sets & Eduard Masks

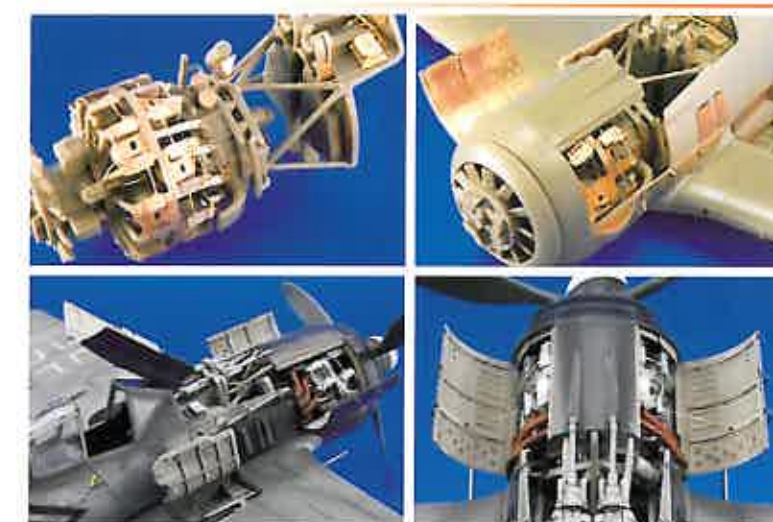

Eduard's photo-etched sets are carefully developed by our designers to detail plastic model kits of aircraft, armoured fighting vehicles and ships. These sets contain parts for adding details that are missing or overscale and/or replacing parts in a kit. The process for making these sets is not very complicated and involves a pattern being applied to a sheet of brass which is then etched with an acid that eats away the surface that is not needed. The thickness of the brass plate is 0.1 mm or for some special sets 0.2 mm. The parts are etched in two levels to give some depth and detail. The parts are then given a thin nickel coating to stop oxidation and to help glues and paint to stick better. Currently Eduard offers more than 3800 PE sets and over 860 masks.

73376, 73382 B-17G cockpit and front interior 1/72 (for Revell kit)

Example of final effect using photo etched accessories on Eduard's Fw 190A and F series.

Using Eduard Mask for accurate painting of canopy frames, wheels, etc. (sample: Fw 190A, F and D line)

Eduard BRASSIN

Eduard Brassin is a new way how to sense scaled reality. Thanks to revolutionary 3D technologies, we are able to scale down large amount of details to bring you high quality resin parts. Sophisticated symbols of high-detail resins and precisely etched metal parts takes your modeling to another level, opening you new dimension of realistic details, allowing your model to stand out over others. Brassin sets contain resin parts, photo-etched metal details and often also Eduard masks. After two first years of Eduard Brassin production it increased to some 60 items for 1/48 and 1/32 scale plastic kits. Please refer to a separate 2012 Eduard Brassin catalogue for details.

Brassin sets are often included in the Eduard limited edition kits. Photo shows Brassin cockpit interior and seat for 1/48 kit Su-22/Su-17M-3.

Introducing the BIG ED concept

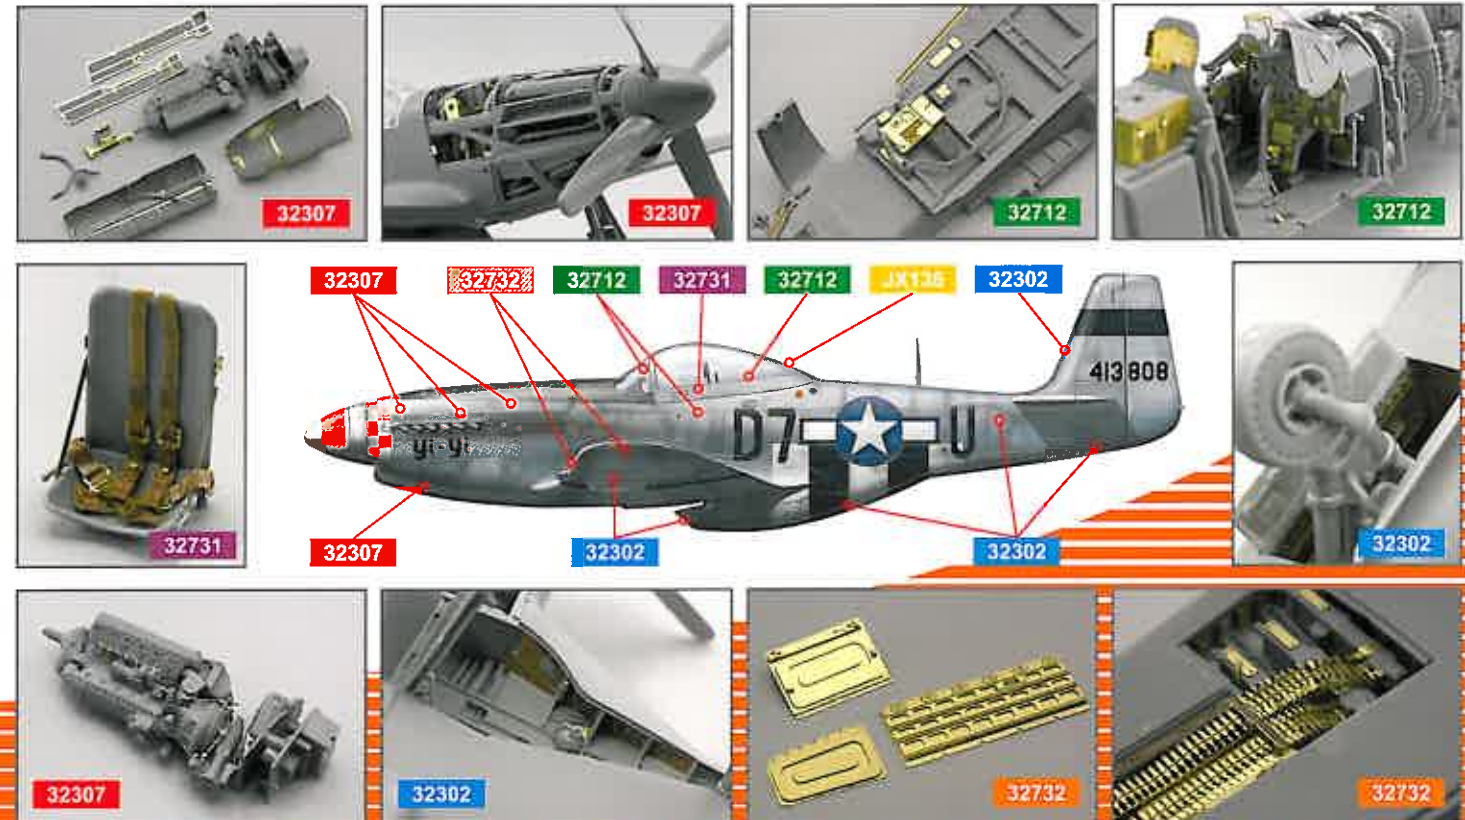

Eduard's BIG ED is a special edition release geared to a specific subject matter. It contains all of the PE and Mask sub-sets available separately, but at a significantly reduced price, allowing you to gain the greatest amount of detail at the lowest possible price.

Why "BIG ED"?

- Contains all you need to superdetail your project in one package.
- These single-package collections save you around 30% off the cost of the individual component sets.
- High, consistent level of standard across the board.

Airplane BIG ED set example:

An example of what a 'Big Ed' set looks like, using Set # BIG3310 P-51D EARLY 1/32 (for Tamiya kit) as an example, the contents include a complete interior with color photoetched (individual set 32712), color seatbelts (32731), engine and engine housing details (32307), gun bay with replacement access door (32732), exterior accessories including landing gear bay and cooler details (32302), and painting masks (JX136) for masking off assistance prior to painting the canopy.

NOTE: The detail sets used in these photographs are shown in their natural brass color and unfinished. The individual components in the sets are plated and colored as indicated.

TRY OUT YOUR MATH:

BIG 3310	
P-51D Early 1/32 (TAM)	
32302 exterior	\$ 22.95
32307 engine	\$ 32.95
32712 interior	\$ 29.95
32731 seatbelts	\$ 22.95
32732 gun bay	\$ 32.95
JX136 mask	\$ 12.95
TOTAL	\$ 154.70
BIG ED PRICE	\$ 110.00
...I SAVE ...	154.70 - 110.00 = 44.70
	hmmmm ?? *

* We'll do the math for you - You save \$44.70, a savings of over 28%! What's not to fall in love with?

BIG ED sets are produced for various types of kits, including Aircraft (1/72, 1/48 and 1/32), Armored Fighting Vehicles (1/48 and 1/35), Ships (1/72, 1/700 and 1/350), as well as for miscellaneous diorama and figure needs in various scales. There are currently some 360 Big Ed sets in our catalog, with new ones added each month.

Armored fighting vehicle BIG ED set example:

PANTHER Ausf. A 1/35 Cat. # BIG3505
35486 Panther Ausf. A early
35487 Zimmerit Panther Ausf. A early

35501 Schurzen Panther Ausf. A
XT067 Panther Ausf. A wheel mask

Total Price: \$39.8
Big Ed Price: \$29.95
You save: \$9.85
