ITALERI

scale modelling since 1962

Gli acrilici Italeri colorano la tua passione

Italeri Acrylics paint your passion

La nuova gamma colori Italeri. Nata per esaltare il nostro hobby preferito e la vostra creatività. Acrilici di facile applicazione, ideali per la colorazione a pennello o ad aerografo grazie all'eccellente coefficiente di diluzione. Qualità, affidabilità e grande attenzione all'ambiente di lavoro: inodori e non tossici.

The new Italeri range of colours. Created to enhance our favorite hobby and your creativity. Acrylics are easy to use, ideal for coloring with brush or airbrush thanks to the excellent coefficient of dilution. Quality, reliability and great attention to the working environment: odourless and nontoxic.

Italeri reserves the right, at its sole discretion and at any time, upon receipt of purchase orders, to modify the availability of the requested items, the release date of new items or to cancel the same. The assembled models, dioramas, and historic figures depicted in our catalogue are for reference only, to show how the final result should look like.

Un nuovo inizio

2011, un anno speciale, grandi cambiamenti.
Ci siamo ritrovati a progettare il futuro
con la carica emotiva e la passione
che ci ha unito e portato fin qui.
Una passione per la quale occorre
il cuore e l'entusiasmo di un bambino,
che scorre tra l'arte figurativa e la storia,
tra la precisione maniacale e la fantasia.
Una passione che resiste alle rivoluzioni mediatiche,
fedele alla manualità, all'amore per la materia,
al piacere unico della creazione.
Il prossimo anno saranno 50.
50 anni di modellismo ai massimi livelli.
Volati. Trascorsi tra archivi e pubblicazioni, musei e fiere,
tra la voglia di regalare emozioni e la necessità
di crescere continuando a realizzare le piccole
meraviglie che rendono unico il modellismo.
Comunicare con voi è uno dei nostri prossimi obiettivi:
scambieremo opinioni nelle piazze virtuali,
durante gli eventi, nelle fiere.
Guardatevi intorno, ci saremo...
con nuove linee, collezioni, soggetti unici,
dimostrazioni, servizi speciali e aree web dedicate.
Buon modellismo a tutti!

*Gian Pietro Parmeggiani e Giuliano Malservisi,
soci fondatori dell'Italeri Spa*

A new beginning

2011 will be a special year, with big changes.
We have come face to face with designing the future
using the same emotional charge and passion
which has joined us and brought us up to this point.
A passion that needs
a child's heart and enthusiasm,
a passion that flows through figurative art and history,
through maniacal accuracy and fantasy.
A passion which withstands the media revolutions,
faithful to manual skill and love for materials,
to the unique pleasure of creating.
Next year will be our 50th anniversary.
50 years made up of top class modelling.
These years have flown by. We have spent them among
archives, publications of magazines, museums and fairs,
among the desire of giving emotions and the need
of growing, continuing to create the tiny
wonders which make modelling unique.
Communicating with you represents one of our next aims:
we will exchange our opinions in the virtual arena,
during the events, in the fairs.
Look around you, we will be there...
with new products, collections, unique contents,
demonstrations, special services and dedicated web areas.
Enjoy your modelling!

*Gian Pietro Parmeggiani and Giuliano Malservisi,
Italeri S.p.A. charter members.*

Viaggio al centro del modello

Sei anni di titoli prestigiosi, modelli selezionati per qualità e valenza storica, arricchiti dal manuale storico fotografico (PRM: photographic reference manual) contenente: un'accurata sezione storica, un viaggio fotografico nei dettagli del soggetto reale, disegni tecnici ed esplosi originali e i nostri curatissimi profili a colori.

A journey right to the heart of the model

Six years of prestigious titles, in which models have been selected on a quality and historical worthiness basis, enriched by a historical and photographic manual (PRM: photographic reference manual) based on: an accurate historical section, a photographic journey to discover the details of the real subject, enriched with technical drawings, concept drawings and our extremely accurate colour profiles.

Vintage Collection

I gloriosi modelli Italeri ritornano sul nostro catalogo! Introvabili ma ancora nel cuore dei modellisti, riprodotti in **edizione limitata certificata** e confezionati nella grafica originale.

The glorious Italeri models are back in our catalogue! Untraceable but still in the model makers' hearts, they have been reproduced in a **certified limited edition**, then packaged in their original graphics.

vintage collection

219 Crusader III

1:35

Progettato all'inizio della seconda guerra mondiale il Crusader è stato uno dei più importanti carri "Cruiser" inglesi, raggiungendo una produzione di oltre 5000 esemplari.

Le prime versioni erano armate da un cannone da 2 pdr., in seguito rimpiazzato dal più potente da 6 pdr.

Conceived at the outbreak of World War Two, the Crusader was of the main British "Cruiser" tanks and reached production of no less than 5.000 units. It was armed with a 6 pdr. gun replacing the less powerful 2 pdr. gun of the previous version.

First released 1976

103 BR.20 "Cicogna"

1:72

Apparso nel 1936 e costruito quasi interamente in metallo, il BR.20 divenne uno dei più noti bombardieri medi italiani. Gli aerei della prima serie debuttarono operativamente nella guerra in Spagna con il 35° Gruppo Autonomo Bombardamento "Le Cicogne" dal quale presero il nome.

This aircraft first appeared in 1936 and was almost entirely built in metal. It became one of the most famous Italian medium bombers. The planes of the first series had their debut operationally in the Spanish Civil War with the 35th bomber Group "Le Cicogne", from which they took their name.

First released 1972

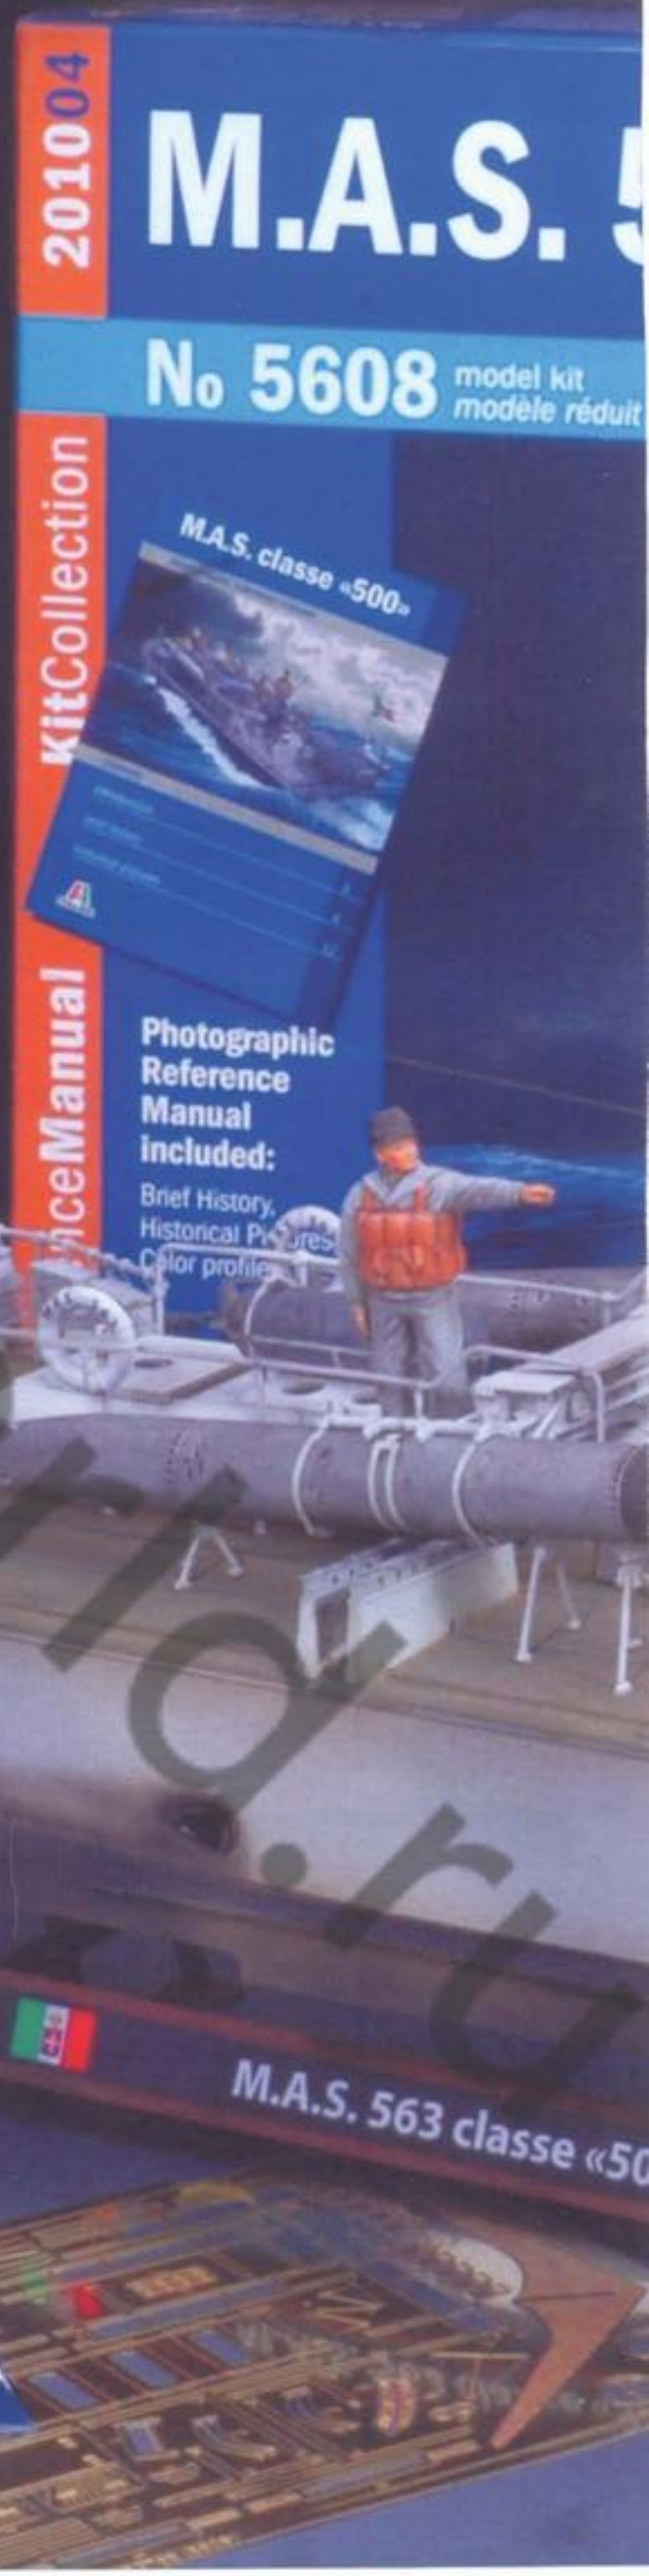

Navi Ships

Dal micro al macro della marina mondiale, pronti a salpare con la flotta Italeri! Un viaggio sorprendente tra le motosiluranti che continua con l'attesissima Vosper inglese. Dalle immense portaerei al mitico S.L.C Maiale, la collezione Italeri non conosce compromessi.

Ranging from a micro to a macro scale of the worldwide navy, we are ready to sail away with the Italeri fleet! An amazing journey through the torpedo boats which continues with the eagerly awaited English Vosper. With its huge aircraft carriers and its mythical S.L.C Maiale, the Italeri collection knows no compromises.

Aerei Aircraft

Un preciso piano di volo

Il rapporto che unisce l'uomo al volo è antico e profondo, tra paura e attrazione fatale, limiti da superare e nuove tecnologie. La Storia dell'aeronautica attraverso un'incredibile collezione di modelli in scala e nuove collezioni: Aviation Glory, Aerobatic Team, Special Color e Historic Upgrade Series.

A precise flight plan

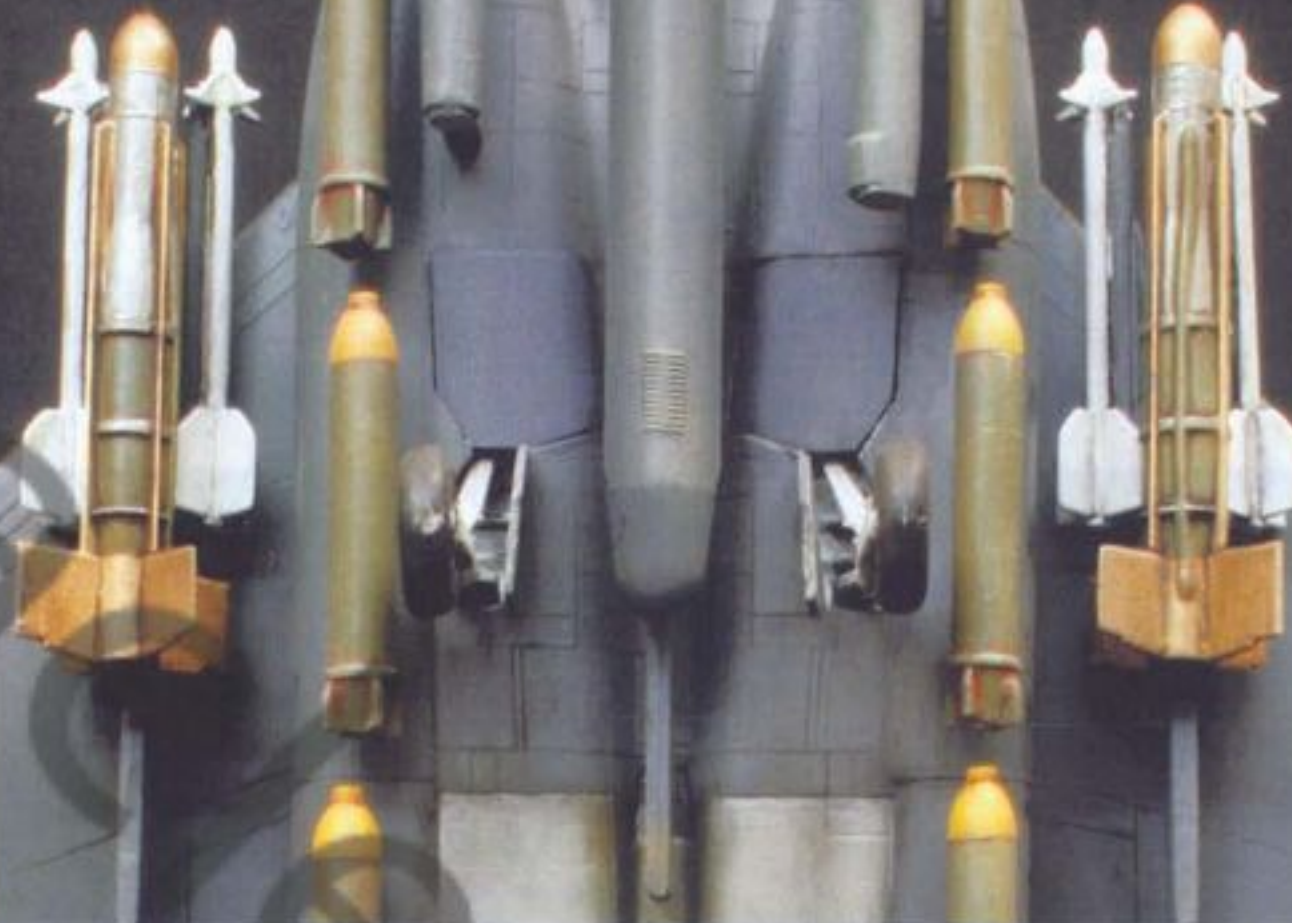

The relation which joins mankind to flying is ancient and profound, with its fears and fatal attraction, with its limits to be overcome and the new technologies. The Air Force history is presented through an outstanding collection of scale models and new collections: Aviation Glory, Aerobatic Team, Special Color and Historic Upgrade Series.

Cura del particolare e dettagli maniacali sono una costante dei modelli Italeri. Le nostre scatole corredate da numerosi parti opzionali, come armamenti o parti strutturali, permettono di realizzare differenti versioni.

Fondamentale è l'offerta di livree e colorazioni, il più possibile inedite. Queste, supportate da un'ampia ricerca iconografica, ci consentono la realizzazione di decalcomanie ricche e originali, garantendo numerose versioni di reparti o nazionalità.

Attention to the particular and maniacal details are peculiarities of the Italeri models. Our boxes, equipped with several optional components, like weaponry or structural components, allow people to build different versions.

The offer of liveries and colorations, as uncommon as possible, is essential. They are supported by a wide iconographical research, and allow us to make rich and original decalcomania and to guarantee, for each subject, several versions of divisions or nationalities.

Super Decal Sheet

super decal sheet

L'indicazione
"Super Decal Sheet"
segnala la presenza
di un foglio decals
di grandi dimensioni
con numerose varianti
di soggetto o nazionalità.

The indication
"Super Decal Sheet"
informs users of the presence
of a big decal sheet
with several versions
of subject or nationality.

**Special
color**

Le forme e i colori

Una linea unica perchè originale nella scelta
dei soggetti, speciale perchè legati a occasioni
ed eventi eccezionali.

Shapes and colours

A collection which is unique because of its
original subject choice, and special because
of its bond with exceptional occasions and events.

Traiettorie improbabili

I colori e le identità nazionali tra un loop e un tonneau.

Improbable trajectories

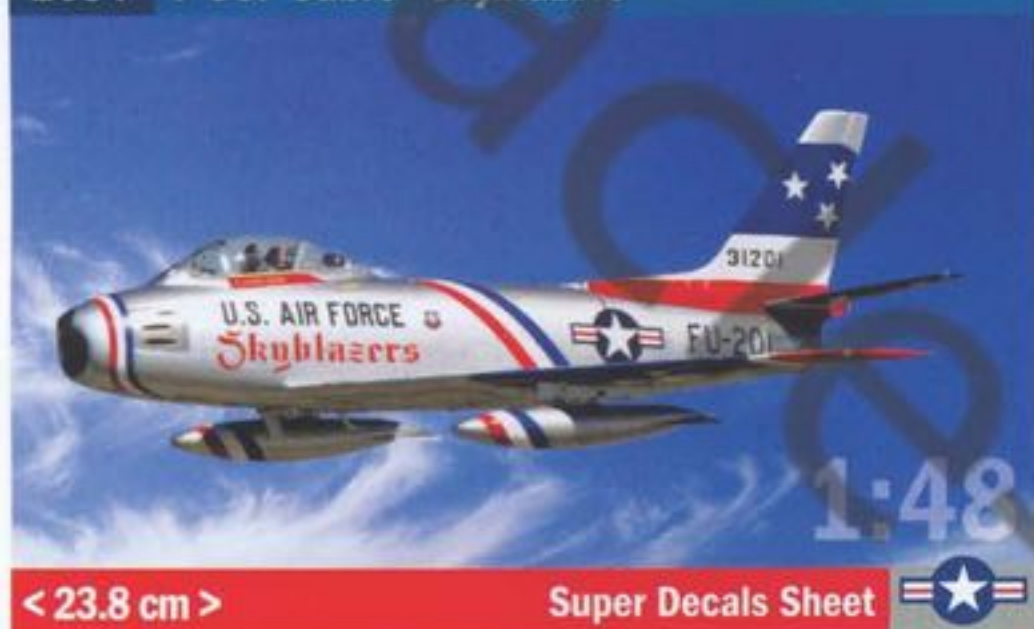

The national colours and identities between a loop and a tonneau.

Una collezione unica

Leggeri come l'aria, irreali,
in equilibrio tra magia e alta tecnologia.
Così ci seducono e per questo
vantiamo la collezione più completa.

A unique collection

Light as the air, unreal, in balance
between magic and high technology.
That is the way they attract us, and that is why
we boast the most complete collection of all.

Model by Sano Bassanelli

Dai cingoli del Panther alle ruote della Coloniale

Autoblinde, carri armati, semicingolati,
veicoli da trasporto, mezzi anfibi, pezzi di artiglieria.
Una vasta gamma che comprende i più importanti
mezzi militari, dai tedeschi agli americani,
dai russi agli inglesi e una linea unica di soggetti italiani.

From Panther's tracks to Coloniale's wheels

Autoblinda, tanks, half tracks, transport vehicles,
amphibians, pieces of artillery. A wide range which includes
the most important military vehicles, from the Germans
to the Americans, from the Russians to the Britons
and a unique collection of Italian subjects.

Photo-etched fret

La plastica trova una delle applicazioni più felici nella riproduzione di questa tipologia di modelli: il livello di dettaglio ottenuto su questi kit ne sono la migliore testimonianza. L'utilizzo delle resine, dei particolari fotoincisi e delle ultime tecnologie ci hanno permesso di raggiungere un livello di realismo e cura del dettaglio senza precedenti.

L'originalità dei soggetti è uno dei punti di forza di questa gamma: accanto ai carri armati più famosi vantiamo una linea unica di mezzi italiani. Dal piccolo carro L6, al più noto M13/40, alla Sahariana, al cannone anticarro "elefantino" per arrivare ad una vera e propria novità nel mondo del modellismo: la Fiat 1100 Coloniale.

Plastic is one of the best materials used to produce copies of this type of models, as it is well witnessed by the detail level gained with these kits. The use of resins, photo-etched frets and of the newest technologies have allowed us to gain an unprecedented level of realism and attention to details.

The originality of the subjects is one of the strong points in this collection: next to the most famous tanks we boast a unique range of Italian vehicles. From the small Carro Armato L6 to the more well-known M13/40, from the "Sahariana" to the antitank gun "elefantino" to an out-and-out innovation in the world of modelling: the Fiat 1100 Coloniale.

fast assembly kits

Studiati appositamente per i giochi di simulazione, i modelli della linea fast assembly sono composti da pochi pezzi che, nonostante la praticità e semplicità di assemblaggio, conservano precisione e dettaglio nelle incisioni. Pochi minuti è il tempo che occorre per montare i modelli contenuti in ogni confezione.

Conceived especially for simulation games, the fast assembly models are made up of few pieces. In spite of their practical characteristics and simplicity of assembly, they are still precise and detailed. All you need are a few seconds to put together the models contained in each box.

Piccoli grandi uomini

Uomini in uniforme che hanno fatto la Storia del XX secolo. Dal Nord Africa, alla Russia, alla Normandia, al Pacifico, la varietà dei soggetti proposti permette di ricreare i più celebri scontri della Seconda Guerra Mondiale. Pose originali e dinamiche li rendono ideali per wargames e diorami.

Little great men

Men in their uniforms that made the history of the 20th century. From North Africa, to Russia, Normandy, the Pacific Ocean, the variety of the characters presented allows us to recreate the most renowned conflicts of the Second World War. Unusual and dynamic poses make them an ideal complement for wargames and dioramas.

L'unica cosa che non contengono è il tuo talento

I soggetti più famosi, ricercati e particolari per una linea che vuole avvicinare al mondo del modellismo in modo semplice e divertente. Con un prodotto completo di colori, istruzioni semplici e dettagliate, colla e pennello vogliamo trasformare una voglia passeggera in una passione per la vita.

I kit, che coprono ogni fascia di prezzo, rappresentano il più classico dei percorsi del vero modellista.

The only feature not included is your talent

The most famous and particular subjects for a line of products that wishes to bring you into the world of model building in a fun, simple way. With products complete with colors, simple and detailed instructions, glue and brush, we want to turn your temporary whim into a life passion. Kits are available in all price ranges and are the most classic steps of the true model builder.

MYFIRST MODELKIT

Dall'A alla Z tutto quello che occorre per costruire il primo modello

Il set completo per iniziare l'avventura
nel magico mondo del modellismo:

- DVD contenente un video che vi guiderà **passo a passo** nella costruzione del modellino
- tronchesine per separare i pezzi
- pinzette di precisione
- lima
- colla atossica
- colori acrilici
- pennello
- il tuo primo, indimenticabile kit

From A to Z everything you need to build your first model

The complete set to start up your adventure
in the magical world of modelling:

- a DVD which contains a video that will guide you **step by step** in the building of the model.
- sprue cutter,
- precision tweezer
- grade
- non toxic glue
- acrylic colors
- brush
- your first, unforgettable kit

Automobile Self-propelling cart

This model represents one of Leonardo da Vinci's most intriguing designs. It has been known as "Leonardo's Automobile" but recent studies consider it one of the first robots in history. The machine is drawn on folio 812/r/ of the Codex Atlanticus together with other devices. The robot's engine is hidden internally: a spring held fast by a stopping mechanism transmits motion to the gears that move the wheels on the sides.

Questo modello rappresenta uno dei più affascinanti progetti di Leonardo da Vinci. È conosciuta come l'Automobile di Leonardo in realtà recenti scoperte hanno verificato che si tratta di uno dei primi robot della storia. La macchina è disegnata sul foglio 812/r/ del Codice Atlantico insieme ad altri congegni. Il motore del robot è nascosto all'interno, una molla bloccata da un freno meccanico trasmette l'energia agli ingranaggi che possono far muovere le ruote laterali.

< 10.7 cm x 9.5 cm x 7 cm >

3102

Leone Meccanico Mechanical Lion

Sui fogli 90/v e 91/r del Codice Madrid sono disegnati "strani" meccanismi non legati al trattato di meccanica e spesso senza testo esplicativo. La loro analisi ha portato alla ricostruzione di congegni che permettono i movimenti robotici di un misterioso animale, un leone meccanico. Il leone, omaggio del Papa Leone X e della città di Firenze, fu portato a Lione, in Francia, e il 12 luglio 1515 alla fine di una sorprendente e magica camminata di fronte al Re di Francia Francesco I, si fermò facendo cadere dei gigli. Può essere considerato tra i primi robot con sembianze animali mai costruiti.

La confezione contiene un libretto storico, scientifico con riproduzioni 3D

The box contains an historical scientific booklet with 3D drawings

Sheets 90/v and 91/r of the Madrid Code include drawings of "strange" mechanisms that are not linked to the treatise on mechanics and often have no explanatory text. Analysing them led to the reconstruction of mechanisms enabling a mysterious animal, a mechanical lion, to move robotically. The lion, a gift from Pope Leone X and the town of Florence, was taken to Lyon, in France; on July 12 1515, at the end of a surprising, magical walk before the King of France, Francis I, it stopped knocking some lilies over. It can be considered one of the first animal-like robots ever built.

< 31.5 cm x 17 cm x 7.6 cm >

3103

Barca a pale Paddle Boat

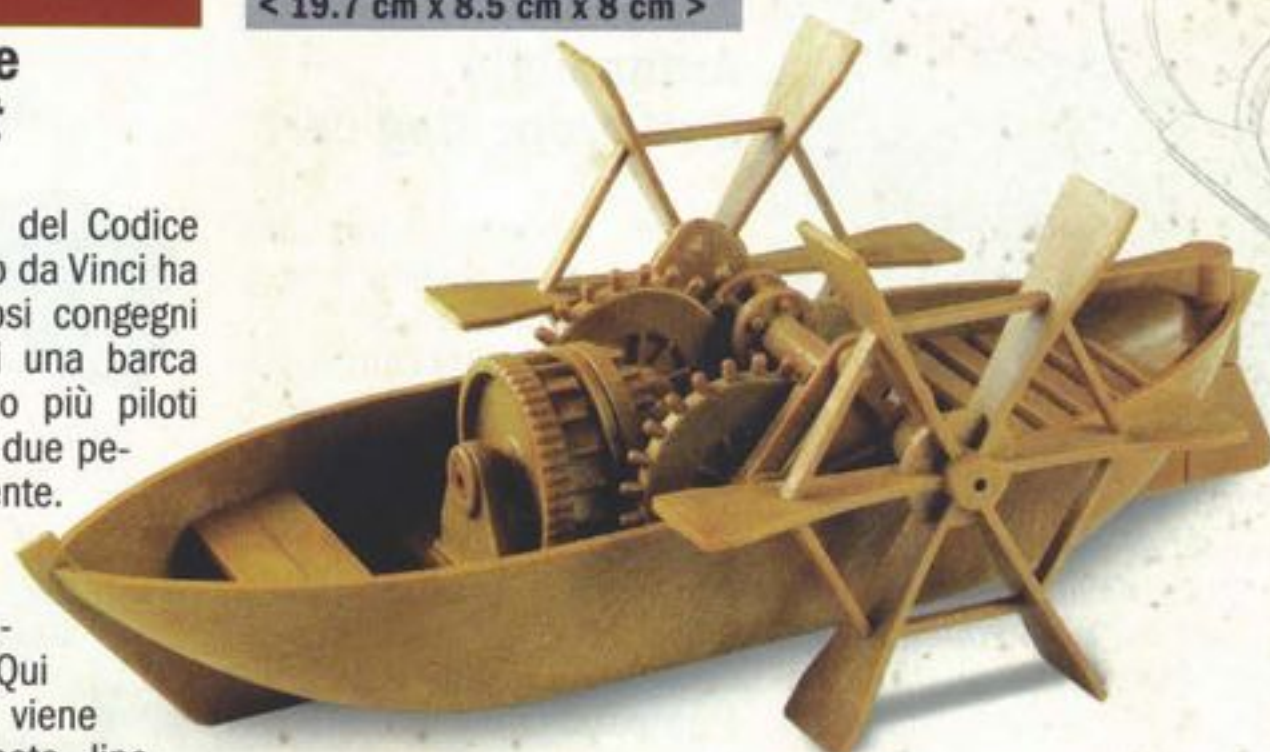

< 19.7 cm x 8.5 cm x 8 cm >

On page 945/r/ of the Codex Atlanticus, Leonardo da Vinci drew many devices for the plan of a mechanical paddle boat. One or more sailors can alternate working the pedals. The pedals transfer the alternate motion to a central gear, where it becomes linear motion, and a series of gears transfer it to the two big paddles on the sides of the craft. The central gear is drawn in more accurately on another page, 30/v/, and the mechanism works through springs hidden in the two main wheels that alternate

Sul foglio 945/r/ del Codice Atlantico Leonardo da Vinci ha disegnato numerosi congegni per il progetto di una barca meccanica. Uno o più piloti possono azionare due pedali alternativamente. I pedali trasportano il moto alternato a un meccanismo centrale. Qui il moto alternato viene trasformato in moto lineare e una serie di ingranaggi portano poi il movimento alle due grosse pale poste ai lati della barca. Il meccanismo centrale è disegnato in modo dettagliato da Leonardo in un altro foglio, il 30/v/, e il meccanismo funziona tramite delle molle nascoste nelle due ruote principali che ingranano alternativamente gli anelli esterni trasformando il moto da alternato a lineare.

La confezione contiene un libretto storico, scientifico con riproduzioni 3D

The box contain an historical scientific booklet with 3D drawings

Bombarda multipla Multi-cannon Gunship

Il primo foglio del /Codice Atlantico/ di Leonardo da Vinci presenta uno strano e misterioso progetto. Analizzando i dettagli si scopre che si tratta di un sistema circolare con sedici cannoni. Il meccanismo centrale fa pensare a un'imbarcazione mossa da una doppia pala. Questa arma segreta quindi potrebbe essere una nave da guerra circolare capace di ruotare su se stessa e di sparare a 360 gradi. Il sistema di ingranaggi centrale permette di ruotare le pale che possono muoversi anche indipendentemente tra loro. Se mentre si spara la nave gira su se stessa, i marinai hanno la possibilità di aprire, pulire e ricaricare il cannone che è pronto di nuovo a sparare. Uno scudo superiore circolare potrebbe proteggere il mezzo, rendendolo una corazzata con 18 bombarde.

The first page of Leonardo's Codex Atlanticus shows a mysterious drawing. Analyzing its details, we discover that it is a circular mechanism with sixteen radial guns. The central mechanism looks like a boat moved by a double paddle. This secret weapon could be a circular warship that could rotate and fire in a 360 degree arc. The central gear wheels allowed for independent movement of the two mechanical paddles. If while firing the ship rotates, the crew can open, clean and reload the gun that is quickly ready to fire again. A round shield can protect the vessel, making it a warship with 18 bombards.

new**3105****Tamburo automatico
Mechanical Drum**

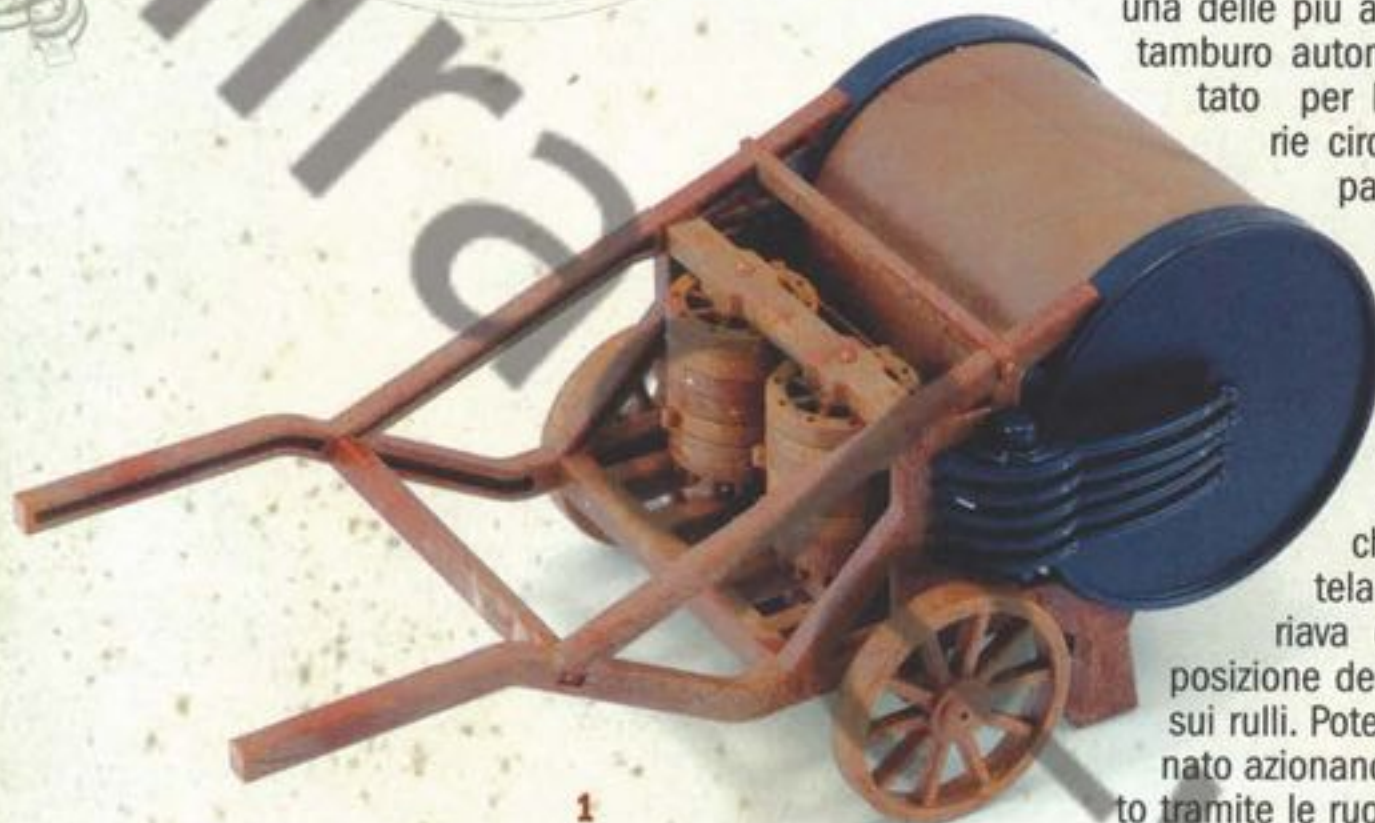

Dall'analisi dei disegni e degli scritti di Leonardo, emerge che tra le tante attività del genio la musica ricopriva un ruolo fondamentale. Tra le numerose soluzioni inventate da Leonardo per produrre suoni, una delle più affascinanti è il tamburo automatico. Progettato per l'utilizzo in varie

circostanze, dalle parate cittadine alle azioni militari. Due grandi rulli trasmettono il movimento alle aste laterali che battono la tela, il ritmo variava cambiando la posizione dei pioli presenti sui rulli. Poteva essere trainato azionando il movimento tramite le ruote (1), oppure utilizzato da fermo mediante una manovella (2).

< 14.5 cm x 12.5 cm x 9 cm >

By analysing Leonardo's drawings and writings, it can be said that, among his many activities, music held a key role. Among the several solutions invented by Leonardo to produce sounds, one of the most fascinating is certainly represented by the automatic drum. It was designed to be used in various circumstances, from town parades to military actions. Two big rolls transmit the movement to the lateral bars, which beat the canvas, the rhythm varies by changing the position of the pegs on the rolls. It could be drawn by activating its wheels (1), or it could be used, keeping still, by moving a handle (2).

< 22.5 cm x 11 cm x 9 cm >

3106**Catapulta
Catapult**

La catapulta è un'arma da guerra già utilizzata nel medioevo che viene rivisitata e migliorata da Leonardo. Come dimostrano i disegni sul foglio 140a/br del Codice Atlantico, il meccanismo di carica viene azionato tramite due grandi braccia di legno flessibile che permettono di aumentare la potenza di lancio. terminate le operazioni di ricarica, il proiettile di pietra o di metallo viene collocato sull'estremità a cucchiaino della lunga leva. Liberando il fermo di sicurezza si aziona il lancio immediato del proiettile verso l'obiettivo.

< 16 cm x 12 cm x 26.5 cm >

A catapult is a weapon which was already used in medieval times, and which was then revisited and improved by Leonardo. As shown in the drawing (sheet 140a/br from the Atlantic Code), the loading mechanism is activated through two big flexible wooden arms, which permit an increase in the launching strength. Once the loading operations are completed, the projectile made of stone or metal is placed on the spoon-shaped edge of the long lever. By releasing the safety lock, the immediate launch of the projectile towards the target is activated.

Activity Set Special Color Collection

Componi, costruisci!

Stimola la memoria componendo il puzzle da **150 pezzi** e scopri la tua manualità costruendo il modello in scala **1:100**. Gli Activity Set Italeri ti faranno scoprire le tue capacità divertendoti.

Compose, build!

Stimulate your memory composing the **150 pieces** puzzle and discover your manual skills building the **1:100** scale model. The Italeri Activity Sets will help you to discover your skills while having fun.

La collezione Italian Special Colors:

aerei dipinti con disegni e colori particolari in occasione di ricorrenze legate al loro stormo di appartenenza. Aerei già speciali per potenza e tecnologia resi unici da artisti che li trasformano in vere opere d'arte volanti.

The Italian Special Colors collection:

aircrafts painted with particular designs and colours on special occasions linked to their squadron. Aircrafts already special due to power and technology, made unique by artists who transform them into true flying works of art.

Il pianeta delle meraviglie

Se volete rivivere l'epopea western, (dai primi pionieri alla febbre dell'oro, da Geronimo al generale Custer, dai cowboys alle grandi praterie tra le mandrie di bufali, da Davy Crockett a Buffalo Bill) la rivoluzione russa (i suoi protagonisti fino agli eroici giorni di Stalingrado), il fascino esotico di greci ed egiziani oppure i brividi delle battaglie intergalattiche vi basta aprire le confezioni di questo marchio ormai diventato un mito indiscusso nel mondo del modellismo

The planet of wonders

Whether you wish to reenact the Western sagas (from the early pioneers to the gold fever, from Geronimo to General Custer, from the cowboys of the wide plains among buffalos, from Davy Crockett to Buffalo Bill), the Russian revolution (its protagonists up to the heroic days of Stalingrad), the exotic fascination of Greeks and Egyptians, or the goose bumps provided by intergalactic battles, all you need is to open a box of this brand, which has become an indisputable myth in the world of model building.
